Service life of at least 5 years

The mattress can be turned over (both sides are the same)

Zippered case, removable, easy care

Permissible load up to 100 kg (per one part of the mattress)

The Eliza Original Grand mattress is a mattress based on an orthopedic spring block by Hofmann (Germany) with 2.4 mm wire springs made of durable steel. The mattress will provide optimal support for the spine during sleep. The spring block is protected on both sides by a reinforced thick protective layer so that the springs cannot pass through the filler. The spring block is reinforced with a polyurethane part. The mattress is covered with cactus on one side, it makes the surface harder, and on both sides - high-quality Ortofoam material (dense, flexible foam). Due to the used filler, mattress is dust mites and other parasites free.
